# Message from President Jim Andrews

---

**Hi** Members and Friends of LHMAC,

**This is the time of year** you can point to any date on the calendar and hit a flying event, or two. Our club has warbird pylon racing and streamer combat on 6/11 and 6/25. Our Float Fly at Acme Dam is Saturday 6/24. The Westmoreland County Airshow is 6/17 and 6/18. Flying at our field is typically restricted on Friday, Saturday, and Sunday of the Show weekend, usually from around 11am til 5pm. When we get the NOTAM, usually a couple days before the show, we will send out an email and post a sign at the field.

**The next club meeting** is July 1st at the field at noon. As always, check our Live Update Calendar for events held by other clubs. Since July 1<sup>st</sup> is on a Saturday near July 4<sup>th</sup> let's also have a Fun Fly/ Cub Day on the 1<sup>st</sup>, we'll grill hot dogs and fly starting at 10am. If you have a Cub bring it, if not, bring something else!

**See you** at the Field or the Lake,

Jim Andrews

## Monthly Club Meeting @ Mammoth Park

### Secretary Jim Zomerski

---

**Minutes for the June 3, 2023 Meeting @ Mammoth Park Airfield.** 23 members and 4 guests present.

New members nominated: Mark Cassella. Motion to approve them as members by Jim Z, second by Mark Y. New member voted in.

#### **Officers Report:**

**Secretary, Jim** called for motion to approve minutes from last months meeting as posted in the last newsletter. Mark Y motion to approve, second by Bill K. motion carried.

#### **Treasurer's Report.**

**Expenses:** Raffle tickets, doughnuts, raffle prizes, table cloths, Gianelli's catering, picnic beverages.

**Income:** Dues, T-shirt sales, raffle proceeds, picnic guests. Bill K motion to approve, second by Mark Y, motion passed.

**Vice President** (absent) Raffle prize was a ZOHD Dart 250G FPV Wing PNP 2s/3s

**News Editor** – Newsletter is up to date and Facebook doing well. We received over 500 views on a couple of post. Send (Text) Jim pictures that are taken at the field. They will either go on Facebook or in the newsletter or both. Send for sale items in. *For sale section of the NL will be updated monthly.*

**Webmaster** – everything running smoothly .

#### **Presidents Remarks**

**Our Field will be closed or have restricted hours** during the weekend of the airshow, June 16-19.

*Emails will be sent out and signs will be posted.*

**New June Events Includes** Butler Area Modelers scale fly, Westmoreland County Airshow, Indiana flyers club fun fly, flight fest 2023, float fly, streamer combat, warbird pylon races, F.A.R.M. float fly.

[Click here for details on our live calendar](#)

**Next meeting is Saturday July 1<sup>st</sup>.**

**Anyone who has a date or ideas on a fun fly, please call Jim Andrews 724 837 4111**

**Fuel committee:** Contact Bill Chiccetti 724 493 5105 for **glow fuel**.

**FRIA** still in the works

**Club Roster** See **Rene**

**Old bussiness:** Identification was reviewed and determined that only the FAA# needed to be on the outside of your aircraft. All other contact information may be placed anywhere on or in the aircraft.

**Picnic** THANK YOU to Jeremiah for all of the work done for the picnic.

**Raffle** won by Ted Denardo

**Meeting adjourned**

# 2023 Foamy Warbird Races

**LOCATION:** Mammoth Park RC Airfield [Click Here for Map](#)

**TIME:** Sunday's 1:00 PM

**TOTAL RACES:** 10 races total, best 8 scores

## RACE DATES (10)

April 16, 30

May 7, 21

June 11, 25

July 2, 16, 30

Aug 13

## RULES

Foamy Warbird – Propeller Only.

3-Cell LiPo battery.

10 laps around pylons – left hand pattern.

3 Heats – 30 Laps per race day.

Must turn outside of pylons to avoid point penalties

## POINTS

Getting airborne: 2 Points

Complete 10 laps: 5 Points

Must land on geotech or grass runway, anywhere else will receive a 2 point deduction for that heat.

First Place: 3 Points, Second Place: 2 Points

Cuts (turning inside pylons): 1 point deduction per cut per pylon

Scores tallied from your 8 best race days (out of possible 10 days) to determine season winners. Prizes TBD

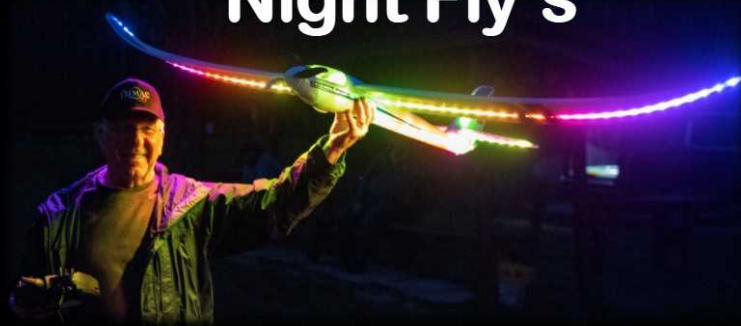

**Contest Director**  
**Jeremiah Ulishney**

**Left:** Josh Pluck of Mt. Pleasant flies a model plane at R.C. Airfield at Mammoth Park in Mt. Pleasant Township, home base of the Laurel Highlands Model Airplane Club. **Right:** The model plane flown by Pluck glides through the air. Pluck won the most improved flyer award from the club.

## FLYING HIGH

*Mt. Pleasant man's heart soars after winning model air pilot award*

BY HALEY DAUGHERTY

One of Josh Pluck's earliest childhood memories is with a model airplane.

He watched as his father pumped 192 pounds of air into an Air Hogs Sky Shark. The pressurized plane was a free flyer that required the user to throw it into the sky to launch it.

"Well the first flight didn't go so well," Pluck said. "It wound up going straight into the trailer and blowing up. I vaguely remember having to pick up pieces of the plane and thinking, 'Wow that plane was really going.'"

Over the years, the Mt. Pleasant man's love for model planes evolved into a passion. He now owns multiple models and video games that simulate flight. He is a licensed model air pilot through the Academy of Model Aeronautics, a member of the Laurel Highlands Model Airplane Club and was recognized as the club's most improved flyer of 2022.

"I about fainted ... when they announced my name," Pluck said. "I wasn't even ready for it, you know? ... they're handing out trophies, and I thought, 'My name isn't going to be on one of those.' Next thing you know,

it's on one of those trophies. I about fell over, fell back in my chair."

Jim Andrews, president of the Laurel Highlands Model Airplane Club, said that when Pluck's name was brought up during a discussion about nominees, the officers exchanged a look and said "of course."

"Josh has been coming to our field for four or five years," Andrews said. "About two years ago, we started a training program and he took to it like a duck takes to water."

The award was a shock to Pluck, who admitted that he was going to vote for his direct support professional and friend, Kyle Whipkey, to take the prize instead.

Pluck is a client of Valley Community Services, a non-profit based in Western Pennsylvania that provides housing and care to individuals with intellectual or developmental disabilities. He resides in one of the organization's community living arrangements where he is visited by Whipkey.

Pluck's love for model planes was infectious and it wasn't long before Whipkey caught the bug.

Josh Pluck (right) looks on as Kyle Whipkey, his direct support professional, flies a model plane at R.C. Airfield at Mammoth Park in Mt. Pleasant Township.

"I never really knew about (radio controlled) anything, and then I was hanging out with (Pluck) and I was like, 'that looks pretty fun,'" Whipkey said. "I got one and wow, it is a lot more fun than I thought it would be."

Whipkey began working with Pluck in May 2022. The two made fast friends and Whipkey began taking Pluck to R.C. Airfield at Mammoth Park in Mt. Pleasant Township, home base of the Laurel Highlands Model Airplane Club, when the park was empty. With neither of them being licensed yet, it was safer for no one to be around as they

attempted and perfected new tricks.

Pluck would show Whipkey different maneuvers with the model planes and then Whipkey would take his turn with the control.

"I taught him a thing or two," Pluck said.

After some thought on Whipkey's part, he decided to take the plunge into the remote control model world and had Pluck help him pick out his first plane.

One day, when Whipkey's bird was already in the air, Andrews pulled into the airfield parking lot. Pluck and Whipkey said that they shared

### About the hobby

- According to the Academy of Model Aeronautics, model airplanes were invented in the 19th century to test theories of flight.
- Building model planes became a popular hobby in 1920s.
- Today's remote control planes can cost from \$50 on the low end to \$500 or more.
- Remote control plane sales around the world increased during the covid pandemic. Airfix, a model plane company based in the United Kingdom, reported a 33% jump in sales between 2019 to 2020.

a moment of panic before Andrews offered to test Whipkey for his Academy of Model Aeronautics model pilot license. To have access to the club and the airfield, flyers are required to take the flight test, which includes different types of in-air maneuvers and landings.

Pluck earned his own license. Since being licensed, Whipkey and Pluck have invested hundreds of dollars and many afternoons with their model planes. Whipkey bought a heated jacket so he and Pluck could spend time flying in the winter.

"I brought two batteries for the jacket with me one day because I knew that we'd be outside all day," Whipkey said.

"It was a great purchase."

During each session, the men use a transmitter control. Also known as a buddy box, a transmitter control allows two fliers to switch control of the aircraft with a click of a switch. Pluck often prefers that Whipkey fly first so Pluck can "spot him." They talk about the crashes their planes have had, whether the aircrafts have survived, as the plastic and styrofoam aircrafts swoop and dip over their heads.

"We always say that we're nothing without our wingman," Whipkey said. "I'm his wingman and he's mine."

# Message from President Jim Andrews

**Thank you for coming to LHMACH field!** New members may not be aware of the FAA requirements of the past several years. **These are the requirements** to fly at Mammoth Park Airfield:

**AMA membership**, go to [modelaircraft.org](http://modelaircraft.org)

← Or Click or scan

**Club membership**, go to [lhmac.org](http://lhmac.org)

← Or Click or scan

**FAA registration**, go to [faadronezone.faa.gov](http://faadronezone.faa.gov) there are 2 classes of registration, one for **recreational users(us)**, and one for commercial users. **For us**, recreational users, you will get one registration number that will be good for all your aircraft.

**TRUST** ( The Recreational UAS Safety Test ) go to [modelaircraft.org/trust](http://modelaircraft.org/trust) to take the test.

← Or Click or scan

Remember, model planes and helicopters are considered drones by the FAA. After you complete the 4 steps, **make labels for each of your aircraft** that has the following things on it,

1. Contact info (Name and Phone #)
2. AMA number
3. FAA registration number

Attach this label to each of your aircraft. **FAA# Must be on the outside of your aircraft**

All other info can go anywhere on the aircraft.

While flying, you need to have 4 pieces of information in your possession:

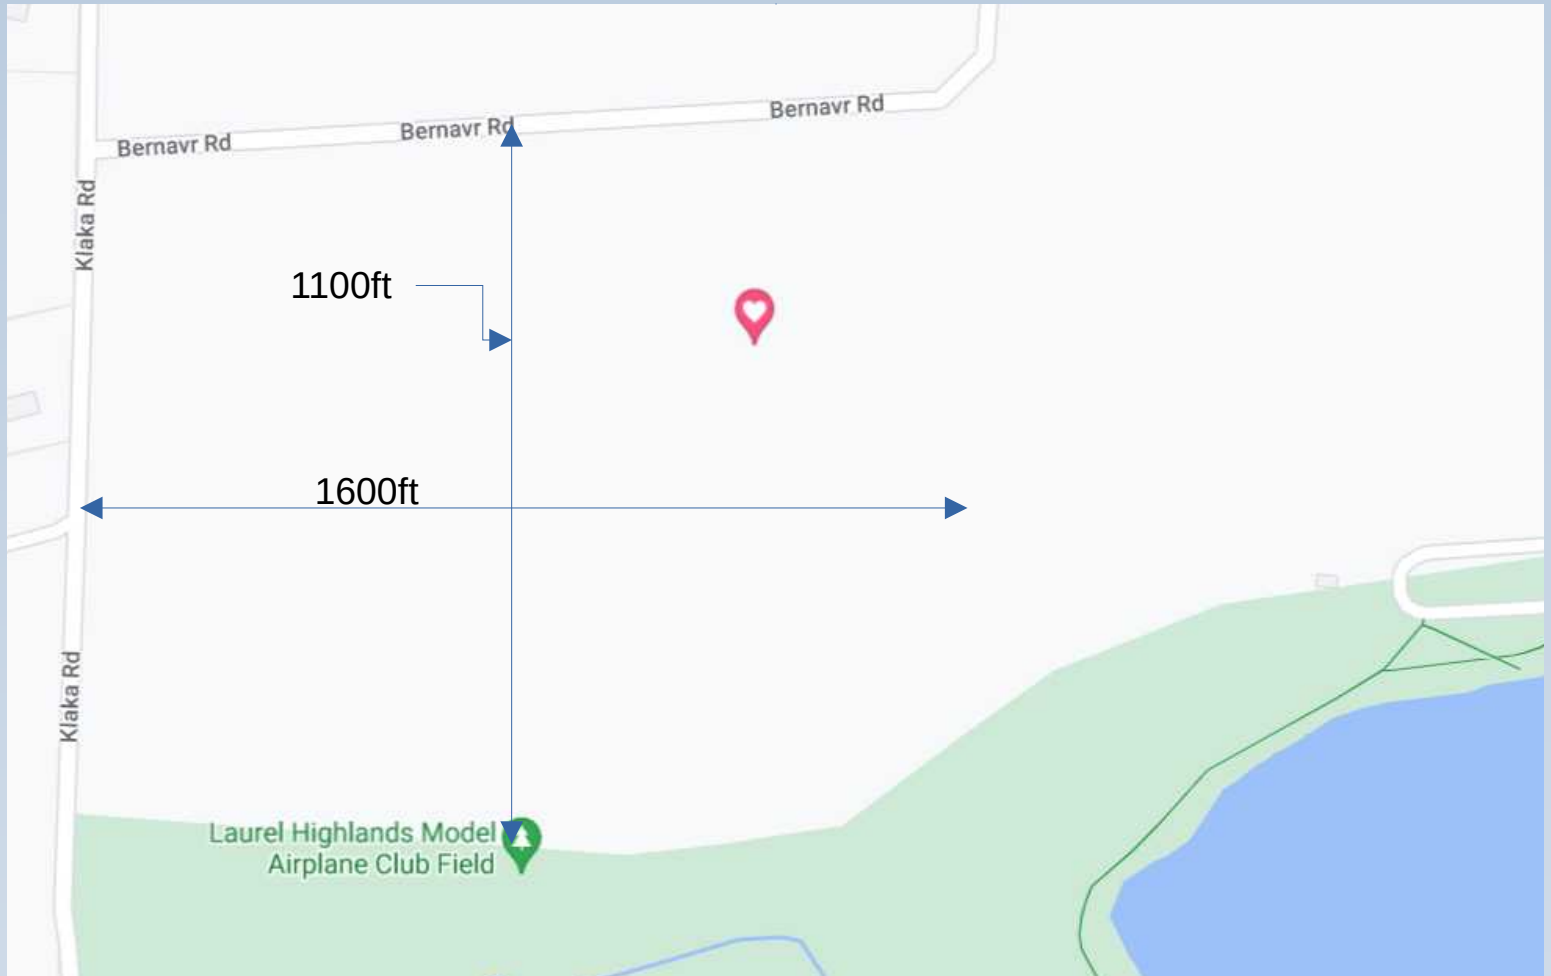

1. Your AMA membership card
2. Your LHMACH membership card
3. Your FAA registration card (Small UAS Certificate of Registration)
4. Your TRUST Completion Certificate

At first it seems complicated but really isn't. The TRUST certificate is a lifetime certificate. The FAA registration is good for 3 years for \$5 and can be renewed keeping the same number. LHMACH is a yearly membership and AMA can be yearly, 2 years, or lifetime membership.

See you at the field!

Jim Andrews

## LHMAC Mammoth Park Model Airfield Boundaries

# **GAS/GLOW FLIGHT QUALIFICATION AND ELECTRIC FLIGHT QUALIFICATION**

**Qualification sessions must ensure that the flyer shows knowledge of and practices the field rules and can safely and competently execute the following:**

- I. Set-up and check aircraft, engine and radio correctly prior to flight.**
- II. Make take-offs to the left and right smoothly and under control (two each).**
- III. Make left and right hand rectangular patterns with proper turns at a safe altitude (two each).**
- IV. Make horizontal figure 8 patterns parallel with the flight line with proper turns at a safe altitude. (two each)**
- V. Make landing approach and landings from the left and right smoothly and under control (two each).**
- VI. Make simulated or real dead-stick landings on the flying site safely and under control (one each).**
- VII. Keep within the designated field boundaries at all times.**
- VIII. Any fail on a section of testing will require a re-test of that section.**
- IX. Qualification is only valid if completed in the presence of a qualified club member and a class qualified (gas class or electric class) designated instructor or club officer.**
- X. Pilots with a gas/glow qualification may fly any aircraft that is AMA legal.**
- XI. Pilots with an electric qualification are not permitted to fly gas/glow aircraft without the use of an instructor.**
