Next Monthly Meeting  
**Wednesday, July 1, 6pm**  
@ Mammoth Park Airfield

**Laurel Highlands Model Airplane Club**  
**Klaka Road, Mt Pleasant**  
**(Mammoth Park)**

**Will be hosting groups at our field**  
to give your kids a chance to fly our trainer  
planes. This could include Scouts, Youth  
Groups, Church Groups, Home School Groups.  
**Get in touch with us to see how we can  
accommodate you!**

**Jim Andrews**  
**724 837 4111**

**Jim Zamerki**  
**724 454 3003**

## Message from President Jim Andrews

---

**Thank you** to everyone that helped make the Picnic a big success, especially Jeremiah for arranging the food. The weather cooperated in spite of threatening forecasts. For those new to the Club, we have a Spring picnic and a Fall picnic. These are family events and are free to Club members and their families.

**The first Float Fly** on June 14th was attended by a number of spectators and flyers so come on out for the next one. Everyone has a great time

**Our next event is Cub Day** on Saturday, June 27. Bring your Cub or Cub like plane. Or whatever you have to fly!

**The weekend before** that is the Indiana Flyers Club Summer Solstice Fun Fly on Saturday, June 20th, at their Indiana Pa field. Always a good event.

**Our next meeting is July 1st** at the field at 6pm. After the meeting is open flying followed by our Night Fly.

**We also hosted a Club Fred** After School event and a Cub Scout event. All this was just in June!

As you can see, there are many opportunities to have fun with this great hobby.

See you soon.

Jim Andrews

# June 3, 2026

## Monthly Club Meeting @ Mammoth Park Airfield

### Secretary Jim Zomerski

---

Minutes for June 3, 2026, at Mammoth Park Airfield

### Officers Report

**Secretary, Jim Z** called for motion to approve minutes from the May meeting as posted in the May newsletter. motion to approve by Carl A , second by Bill C, motion carried.

**Treasurer's Report.** Expenses, Secretary, President supplies, Westmoreland County Parks for permits, Treasurer stamps. Income: Raffle proceeds and dues. Bill K motion to approve, second by Bill C.... motion carried.

**Vice President** No raffle

**News Editor** Newsletter, mass emails, and Facebook is getting our message out there. If you have any RC stuff that you would like to sell, send Jim Z pictures, descriptions, and pricing.

## 3D Lab Prints A6M2 Zero \$90

Hi Everyone. I have been 3d printing planes for a little while. I finally have the settings dialed to where I feel comfortable offering some completed prints to those who do not have a 3d printer. This listing is for the Zero from 3d labprint. It is printed in Polymaker LW-PLA (Light Weight PLA). This PLA is not quite as light as Esun or Colorfabb but the strength is far better and the looks are much better. Overall a much better finished product. 1m Wingspan

You provide the power system and your radio gear, pushrods, and hardware.

If you aren't familiar, 3d printed planes aren't perfect. They do need light sanding from time to time. The hard part has been done though. All you need to do is glue it together. I feel the assembly is easier than any of the Chinese ARFs of years past. I do 90% of the post processing so that you have as easy a time as possible.

I will include all of the printed parts for one Zero airplane and a printed manual. Please let me know if you have any questions. I am always happy to answer. Please understand to fully print a plane takes 3 days roughly and this is a way to supplement the hobby for me, not my full time job. I get joy in making things as we all do being a part of this hobby.

Contact **Sam Borrelli**

661-236-5422

# Message from President Jim Andrews

**Thank you for coming to LHMACH field!** New members may not be aware of the FAA requirements of the past several years. **These are the requirements** to fly at Mammoth Park Airfield:

**AMA membership**, go to [modelaircraft.org](http://modelaircraft.org)

← Or Click or scan

**Club membership**, go to [lhmac.org](http://lhmac.org)

← Or Click or scan

**FAA registration**, go to [faadronezone.faa.gov](http://faadronezone.faa.gov) there are 2 classes of registration, one for **recreational users(us)**, and one for commercial users. **For us**, recreational users, you will get one registration number that will be good for all your aircraft.

Or Click or scan

**TRUST** ( The Recreational UAS Safety Test ) go to [modelaircraft.org/trust](http://modelaircraft.org/trust) to take take the test.

Remember, model planes and helicopters are considered drones by the FAA. After you complete the 4 steps, **make labels for each of your aircraft** that has the following things on it,

1. Contact info (Name and Phone #)
2. AMA number
3. FAA registration number

Attach this label to each of your aircraft. **FAA# Must be on the outside of your aircraft**

All other info can go anywhere on the aircraft.

While flying, you need to have 4 pieces of information in your possession:

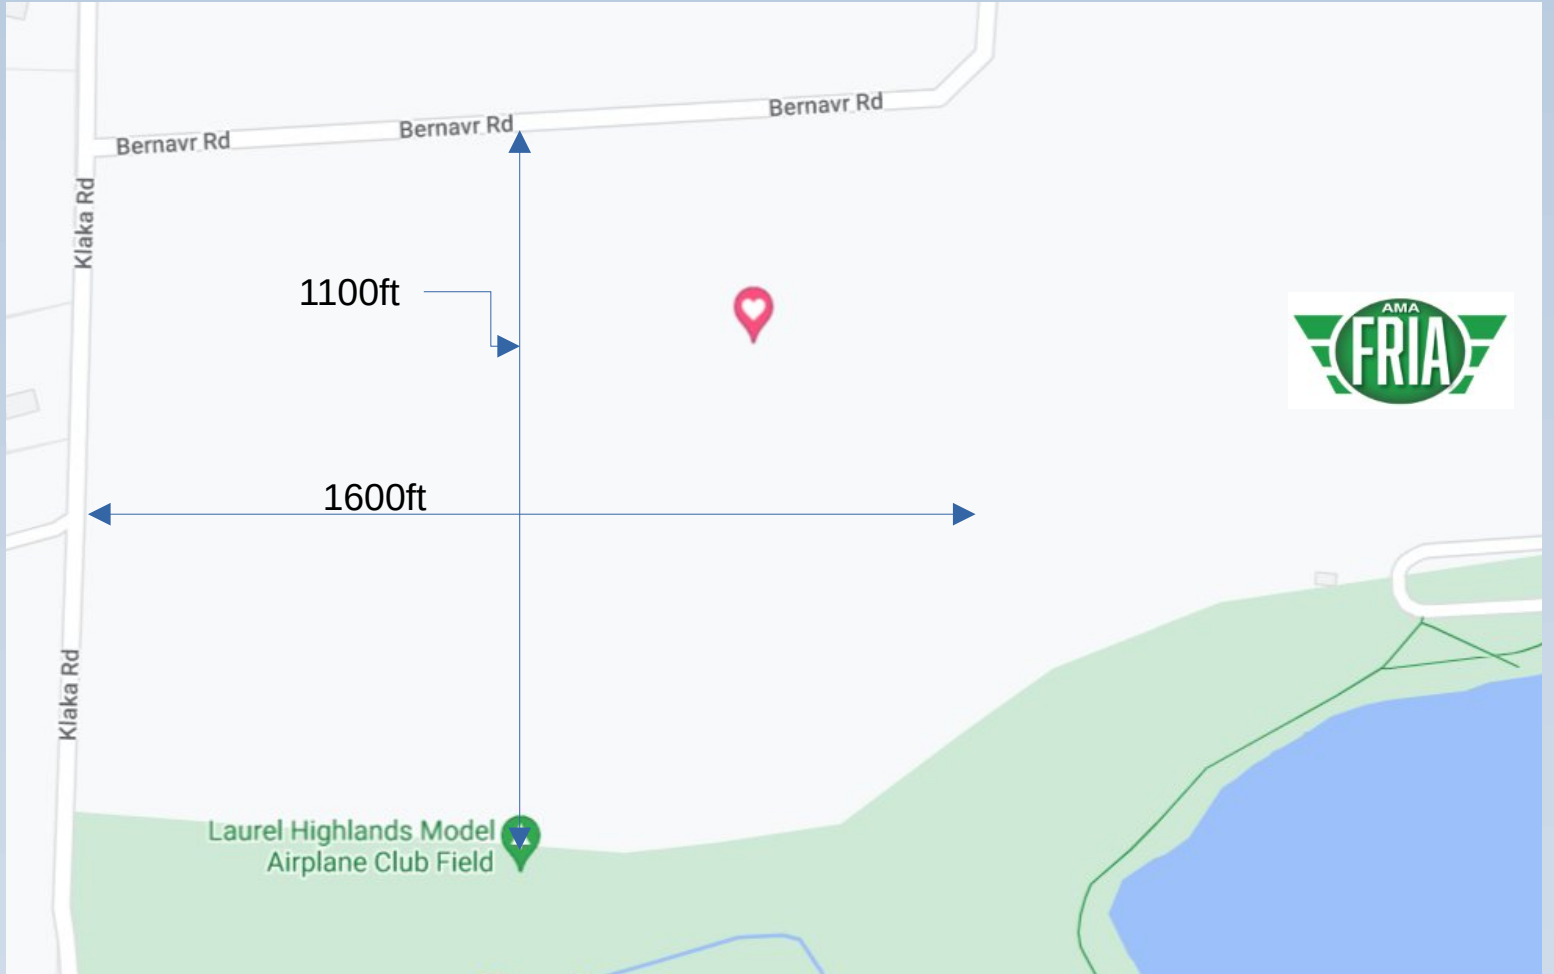

1. Your AMA membership card
2. Your LHMACH membership card
3. Your FAA registration card (Small UAS Certificate of Registration)
4. Your TRUST Completion Certificate

At first it seems complicated but really isn't. The TRUST certificate is a lifetime certificate. The FAA registration is good for 3 years for \$5 and can be renewed keeping the same number. LHMACH is a yearly membership and AMA can be yearly, 2 years, or lifetime membership.

See you at the field!

Jim Andrews

## LHMAC Mammoth Park Model Airfield Boundaries

# **GAS/GLOW FLIGHT QUALIFICATION AND ELECTRIC FLIGHT QUALIFICATION**

**Qualification sessions must ensure that the flyer shows knowledge of and practices the field rules and can safely and competently execute the following:**

- I. Set-up and check aircraft, engine and radio correctly prior to flight.**
- II. Make take-offs to the left and right smoothly and under control (two each).**
- III. Make left and right hand rectangular patterns with proper turns at a safe altitude (two each).**
- IV. Make horizontal figure 8 patterns parallel with the flight line with proper turns at a safe altitude. (two each)**
- V. Make landing approach and landings from the left and right smoothly and under control (two each).**
- VI. Make simulated or real dead-stick landings on the flying site safely and under control (one each).**
- VII. Keep within the designated field boundaries at all times.**
- VIII. Any fail on a section of testing will require a re-test of that section.**
- IX. Qualification is only valid if completed in the presence of a qualified club member and a class qualified (gas class or electric class) designated instructor or club officer.**
- X. Pilots with a gas/glow qualification may fly any aircraft that is AMA legal.**
- XI. Pilots with an electric qualification are not permitted to fly gas/glow aircraft without the use of an instructor .**
