Message from President Jim Andrews

This is the time of year we've been waiting for. Time to get out and FLY! In addition to our Club events there are other clubs in the area that also offer great opportunities to fly. I won't list them all since they appear on our Live Calendar and in this newsletter. But I do want to point out a few.

Mammoth Fest is being held at Mammoth Park on Sunday, May 31st. I mention this because it is a great family event and our Club supports it by helping with the **parking**. If you haven't signed up to help yet please contact me or Jim Zamerski.

Our first flying event is a Night Fly on June 3. We also have our meeting on the same day at 6pm. After the meeting we will have a short cleanup of the field to get ready for our next event which is our Family Picnic on Sunday, June 7th. The first Float Fly of the year is June 14th at Acme Dam.

Our Team Reach app is getting increased usage. This helps our members stay in touch and is useful when planning trips to the field. Try it out.

See you soon
Jim Andrews

May 6, 2026

**Monthly Club Meeting @ Mammoth Park Airfield
Secretary Jim Zamerski**

Minutes for May 6, 2026, at Mammoth Park Airfield

Officers Report

Two new prospective members attended. Mike Andras and Tim Thomas. They were both voted in unanimously. Welcome to the club, Mike and Tim.

Secretary, Jim Z called for motion to approve minutes from the April meeting as posted in the April newsletter. *After a discussion* there was a motion to approve by Steve M for Wednesday night monthly meetings through the summer so they don't conflict with Saturday events. , second by Bill C, motion carried.

Treasurer's Report. Expenses, Pleasant Unity Pizza. Income: Raffle proceeds, Bill K motion to approve, second by Bill C.... motion carried. Rene also read aloud a thank you letter from parks and recreation for our donation to March for Parks.

Vice President Raffle is an H-K Crusader. Money for picnic on Sunday, June 7 was put up for approval. Motion to approve by Ted D, second by Steve M.

Field control Field has been trimmed. Thx Ted! There will be a **safety review** at the next meeting reviewing pit flying, standing too close to the field, standing on the field when other planes are flying, Bench flying (flying from the bench), etc.

Presidents report

Schedule still coming together.

Volunteers needed for:

Senior Games at Mammoth Park on Thursday, May 7 and Monday, May 11. Volunteer if you're available. Free lunch and a T-Shirt.

Annual Mammoth Fest parking Sunday, May 31. **All hands on deck!**

Pick a shift. 9-1 or 1-5 or all day. We will be needing at least Twenty volunteers.

Call Jim A 724 837 4111

Scout Camporee at Bushy Run Saturday 5/16

March for Parks at Twin Lakes is on Saturday, March 28 (which we donate too)

Fuel Sales fuel is available. \$25 per gallon. **\$99 a case of 4.** Contact Bill @ 724-493-5105 to purchase

Old Business Certain Emails may get delivered on different days due to new email restrictions with multiple carriers.

New Business Seat cushions for the to be researched by Steve M.

Show and Tell Josh had a Sopwith Pup model.

Meeting Adjourned

3D Lab Prints A6M2 Zero \$90

Hi Everyone. I have been 3d printing planes for a little while. I finally have the settings dialed to where I feel comfortable offering some completed prints to those who do not have a 3d printer. This listing is for the Zero from 3d labprint. It is printed in Polymaker LW-PLA (Light Weight PLA). This PLA is not quite as light as Esun or Colorfabb but the strength is far better and the looks are much better. Overall a much better finished product. 1m Wingspan

You provide the power system and your radio gear, pushrods, and hardware.

If you aren't familiar, 3d printed planes aren't perfect. They do need light sanding from time to time. The hard part has been done though. All you need to do is glue it together. I feel the assembly is easier than any of the Chinese ARFs of years past. I do 90% of the post processing so that you have as easy a time as possible.

I will include all of the printed parts for one Zero airplane and a printed manual. Please let me know if you have any questions. I am always happy to answer. Please understand to fully print a plane takes 3 days roughly and this is a way to supplement the hobby for me, not my full time job. I get joy in making things as we all do being a part of this hobby.

Contact **Sam Borrelli**

661-236-5422

Message from President Jim Andrews

Thank you for coming to LHMACH field! New members may not be aware of the FAA requirements of the past several years. **These are the requirements** to fly at Mammoth Park Airfield:

AMA membership, go to modelaircraft.org

← Or Click or scan

Club membership, go to lhmac.org

← Or Click or scan

FAA registration, go to faadronezone.faa.gov there are 2 classes of registration, one for **recreational users(us)**, and one for commercial users. **For us**, recreational users, you will get one registration number that will be good for all your aircraft.

TRUST (The Recreational UAS Safety Test) go to modelaircraft.org/trust to take take the test.

← Or Click or scan

Remember, model planes and helicopters are considered drones by the FAA. After you complete the 4 steps, **make labels for each of your aircraft** that has the following things on it,

1. Contact info (Name and Phone #)
2. AMA number
3. FAA registration number

Attach this label to each of your aircraft. **FAA# Must be on the outside of your aircraft**

All other info can go anywhere on the aircraft.

While flying, you need to have 4 pieces of information in your possession:

1. Your AMA membership card
2. Your LHMACH membership card
3. Your FAA registration card (Small UAS Certificate of Registration)
4. Your TRUST Completion Certificate

At first it seems complicated but really isn't. The TRUST certificate is a lifetime certificate. The FAA registration is good for 3 years for \$5 and can be renewed keeping the same number. LHMACH is a yearly membership and AMA can be yearly, 2 years, or lifetime membership.

See you at the field!

Jim Andrews

LHMAC Mammoth Park Model Airfield Boundaries

GAS/GLOW FLIGHT QUALIFICATION AND ELECTRIC FLIGHT QUALIFICATION

Qualification sessions must ensure that the flyer shows knowledge of and practices the field rules and can safely and competently execute the following:

- I. Set-up and check aircraft, engine and radio correctly prior to flight.**
- II. Make take-offs to the left and right smoothly and under control (two each).**
- III. Make left and right hand rectangular patterns with proper turns at a safe altitude (two each).**
- IV. Make horizontal figure 8 patterns parallel with the flight line with proper turns at a safe altitude. (two each)**
- V. Make landing approach and landings from the left and right smoothly and under control (two each).**
- VI. Make simulated or real dead-stick landings on the flying site safely and under control (one each).**
- VII. Keep within the designated field boundaries at all times.**
- VIII. Any fail on a section of testing will require a re-test of that section.**
- IX. Qualification is only valid if completed in the presence of a qualified club member and a class qualified (gas class or electric class) designated instructor or club officer.**
- X. Pilots with a gas/glow qualification may fly any aircraft that is AMA legal.**
- XI. Pilots with an electric qualification are not permitted to fly gas/glow aircraft without the use of an instructor .**
